This office utilizes an **"open-adjusting"** environment for ongoing patient care. "Open adjusting" involves several patients being seen in the same adjusting room at the same time. Patients are within sight of one another and some ongoing routine details of care are discussed within earshot of other patients and staff. This environment is used for ongoing care and this is NOT the environment used for taking patient histories, providing examinations or presenting reports of findings. These procedures are completed in a private, confidential setting. The use of this format is intended to make your experience with our office more efficient and productive as well as enhance your access to quality health care and health information. If you choose not to be adjusted in an open-adjusting environment other arrangements will be made for you.
